

WHAT IS A FRIEND

The **Coos County Friends of Public Health** is a non-profit organization with the mission “to promote health in Coos County through enhancement of local public health services.”

A Friend shows support for services that promote healthy families, such as WIC and Parents As Teachers, by learning more about public health issues through emails and the Friends Newsletter, and by sharing that information with their friends and colleagues.

A Friend is alerted of opportunities to advocate for public health programs and to participate in special projects, such as public health recognition week.

Some Friends choose to be more active by serving as a board member, helping with community educational displays, advocating for public health issues, fundraising, and/or volunteering for public health programs.

For more information, you can contact us at CCFoPH@gmail.com, or the mailing address shown on this brochure. You may also visit our website at www.CCFoPH.org.

Mission

To Promote Health in Coos County through enhancement of local public health services.

Purpose

- To promote an understanding of the public health needs of communities in Coos County and the availability of services to address those needs.
- To increase community collaboration to achieve public health goals and to provide public health services.
- To encourage volunteer involvement for local public health programs.
- To educate about the important relationship between resources and essential public health services.
- To generate resources in fulfillment of our mission.
